ekey dLine komplekt Fuhr autotronic multitronic

Tootekirjeldus

The ekey dLine fingerprint scanner is a biometric access solution that grants keyless access to buildings using intuitive touch operation. The door now also features smart functions, so that the intelligent use of a building begins at the front door. The system is administered via the free ekey bionyx app.

The fingerprint scanner in detail:

- Smallest possible model: the focus is on the door design
- Area sensor technology
- Different switching functions with different fingers
- Recommended mounting height: 155 cm
- Suitable for outdoor and indoor use
- Temperature resistance from -25 °C to +70 °C
- Status display via 4-segment light ring
- 20 users or 80 fingers (can be expanded to 100 users)
- Read protection: stored information can not be read or further processed

Scope of delivery:

- ekey dLine fingerprint scanner - 201001
- ekey dLine design element door leaf stainless steel gray - 201101
- ekey dLine control unit - 201201
- ekey dLine control unit mounting plate round-cut 20 mm - 201211

- ekey dLine control unit mounting plate square-cut 24 mm - 201214
- ekey dLine control unit motorized lock cable 3.5 m - 201342
- ekey dLine fingerprint sided control unit cable 0.6m - 201321
- ekey dLine fingerprint scanner control unit sided cable 3.5 m - 201326

Important: For activation, you also need an ekey dLine cable transfer (201401) or, if no ekey dLine cable transfer is used, an ekey dLine control unit cable transfer cable (201331–201336).
