Yale Smart Keypad 2 - Fingerprint

Experience seamless keyless entry with the Yale Smart Keypad 2 - Fingerprint.

Pair it with your compatible Yale smart device to use your fingerprint or a personal entry code to unlock your door effortlessly. Use the one-touch locking keypad button when you leave.

Add up to 10 users with fingerprint authentication and generate unique entry codes for family, friends, and trusted individuals via the Yale Home app. Always stay informed* with instant alerts for every entry and get notified when someone rings the built-in doorbell on the keypad.

Seamless keyless entry
Use your fingerprint or a personal entry code to unlock your door, and lock it with just a touch of a button.

Yale Home app control
Generate unique entry codes to your home and get instant alerts* when someone enters or rings the doorbell.

DIY installation
Easy to mount near your front door using provided fixings, placing it within Bluetooth range of your Yale smart device.

- Up to 10 fingerprints
- Customisable personal entry codes with 4 to 8 digits
- One-touch locking
- Keypad lights up as your approach
- IP55 for water & dust resistance
- Doorbell functionality*
- Works with voice assistants*

*Yale Connect Wi-Fi Bridge is required for devices without built-in Wi-Fi.

Trusted every day
