

## DATA SHEET MAILBOX GIOIOSA 10-400

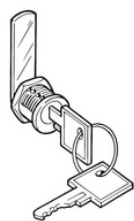

The Gioiosa magazine-size mailbox, sized 258x375x85/120mm, made of die-cast aluminium, oven painted in the RAL colours indicated, with peephole and name holder on the front. It is equipped with a flap opening with stop to prevent the post from falling and allows it to be easily retrieved. The mail is fed from the top through a slot (size 230 x 25 mm) protected by a rain cover. Grommets underneath the canopy serve to avoid any noise. Wall installation is simplified by the anchoring system supplied with the box, or it can be hung on a fence with the help of the crossbar kits.

## TECHNICAL CHARACTERISTICS GIOIOSA 10-400

The weather resistance and the curved shape ensure the flow of water, preventing stagnation and ensuring an aesthetically pleasing appearance in the long term.

Robust "derlin" pins provide perfect and durable movement

Lid stop grommets reduce noise

The strong cast aluminium construction provides excellent resistance to vandalism attacks

Flap opening with stop prevents mail from falling out and allows it to be easily picked up

The 'magazine' format allows convenient setting for distributors without damaging the content

Gravity closure of the lid ensures the integrity of the mail as it allows for automatic closure of the rain cover

The slotted anchoring system simplifies installation on various supports. The mailbox is supplied with screws, press-in dowels and grommets to compensate for any irregularities in the wall.
