Steel-O-Flex AERO Centuro 860/85 (5180 mm)	1 tk	60,94 €

cable lock made of 860 mm thick, hardened steel wires and flexible (but tough) reinforced steel, which encase the inner steel cable and thus provide double security. This makes it much more difficult to cut the cable than with a simple cable lock. We recommend using the Steel-O-Flex™ Centuro 860 primarily for securing good bikes and as protection in areas with a medium risk of theft.
