

ABUS Ultra 410/170

Tootekirjeldus

Featuring a simple, strong and aggressive design, the ultra 410 is the ideal entry level U-Lock and rounds out the super ultimate and ultimate line-up in.

It's simple design conceals a number of high-tech advancements in security. The 12mm double-bolting temper hardened steel shackle extends all the way through the lock body providing excellent protection against cutting and Torsion attacks in a simple yet innovative design.

- Innovative soft touch housing cover prevents damage to paint
- Shackle, body, and supporting elements made from temper hardened steel for cut and torsion resistance
- Pass-through shackle provides anti-twist protection
- Patented Double layered cylinder with special wafers and additional decoy cuttings protects against picking
- 12mm round shackle
