

ASSA 2000

Tootekirjeldus

Application Locks for private houses and apartments where there is a need for the convenience of a thumbturn when the building is occupied but with the possibility to prevent unauthorised use of the thumbturn when the building is left unattended.

Striking plate Features

- Special high security lockcase.
- Hardened steel deadbolt thrown 21 mm by single 360° turn of key or by 95° turn of thumbturn.
- Key can be removed in locked or unlocked position.
- Latchbolt reversible without opening lockcase.
- Available with 50 mm backset only.
- Available with double cylinders and thumbturn on inside.
- Cylinder and accessories bolt through lockcase for added strength.
- Extra sturdy construction for Heavy Duty use.
- Latch and deadbolt chromium plated.
