The ekey dLine door handle made of stainless steel has the ekey dLine fingerprint scanner already integrated and can be used on all standard aluminum, plastic or timber doors. The ekey dLine fingerprint scanner is a biometric access solution that grants keyless access to buildings using intuitive touch operation. The door now also features smart functions, so that the intelligent use of a building begins at the front door. The system is administered using the free ekey bionyx app.

Door handle:

- Stainless steel (V4A)
- Brushed surface
- Mounting set for fastening on aluminum, plastic, or timber doors
- Separable ekey dLine fingerprint scanner control unit cable

Fingerprint scanner:

- Area sensor technology
- Different switching functions with different fingers
- 20 users or 80 fingers (can be expanded to 100 users)
- Status display via 4-segment light ring
- Read protection: stored information can not be read or further processed
- Recommended mounting height: 155 cm
- Suitable for outdoor and indoor use

- Temperature resistance from -25 °C to +70 °C

Scope of delivery:

- ekey dLine door handle
- ekey dLine [fingerprint scanner](#) - 201001
