

Keyline Bluetooth & Power Adaptor 2.0 BTP2.0

Tootekirjeldus

- Bluetooth & Power Adaptor 2.0 is the next-generation rechargeable battery with Bluetooth technology to use 884 Decryptor Mini wirelessly from any smartphone and tablet.
- Bluetooth & Power Adaptor 2.0 is equipped with a built-in radio station that allows the use of the new pre-coding function of automotive remote controls, like Mavik, the Keyline universal remote control.
- Bluetooth & Power Adaptor 2.0 makes 884 Decryptor Mini even more flexible and able to meet the needs of all automotive specialists that want to offer a cloning service anywhere.
- Bluetooth & Power Adaptor 2.0 has a stable and long-term charge (up to 10 hours with continuous use); is easy and rechargeable via PC connection or battery power. In addition, during charging, 884 Decryptor Mini can be used continuously.
