

Võutmete lõikamismasin Keyline Punto

Tootekirjeldus

The Punto machine is easy to use and precise, and is therefore the ideal tool to cut dimple and laser keys. It is reliable and ergonomic and has all the characteristics and the elements that are necessary to guarantee an excellent performance.

- Integrated LED light.
- Vertical suspensions for dimple keys.
- Manual locking of all mobile parts.
- Possibility of use with additional clamps.
- Carriages mounted on ball bushings.
- Automatic check of the start and stop of the milling cutter.
- Engine and wiring are protected by a relay against accidental voltage overloads.
