

ABUS 190CS

Tootekirjeldus

The ABUS 190CS/60 Heavy Duty Combination Lock is a resilient, heavy-duty padlock.

It is encased in a hardened steel jacket that covers both its body and shackle. Further to this, its double-bolted shackle is made of a hardened steel alloy and is also protected by a shackle guard.

Moreover, the ABUS 190CS/60 Heavy Duty Combination Lock includes a precision locking mechanism that resists manipulation. These features all work to make the ABUS 190CS/60 Heavy Duty Combination Lock suitable for securing items of a higher value and/or at a greater risk of theft.

Finally, as well as being both outwardly and inwardly resilient and secure, the ABUS 190CS/60 is also versatile. It is supplied with a key to set the code allowing the user to reset the four-digit code to one that is memorable.

Therefore the ABUS 190CS/60 Heavy Duty Combination Lock is a highly secure, durable yet versatile padlock.
