Keyline 884 Decryptor Mini

Tootekirjeldus

- The device for cloning and pre-coding of automotive keys and remote controls, with extreme calculation power and an unparalleled low price.
- 884 Decryptor Mini is simple to use: just connect it to your Android smartphone or tablet, with USB-OTG capability (for more details click here), or to a Windows PC (7 or higher) with an Internet connection, download the Keyline Cloning Tool mobile App** or the PC Software and start the procedure without having to press any buttons or connecting to a power outlet.
- The LED lights on the 884 Decryptor Mini inform the user of the various phases of the cloning procedure, while the interface displayed on the screen of the smartphone, tablet, or PC takes the user through the whole procedure.
- Its extremely high calculation power, maximum flexibility, and ease of use guaranteed by an easy and quick updating procedure make it the ideal choice for automotive professionals.
